

Potential problems arising due to the Coronavirus - UPDATED (11 February 2020)

28 January 2020

The newly identified Coronavirus has made world headlines, as it is suspected to have caused the death of nine people and over 400 have been diagnosed with the illness. If the prevalence of the virus increases.

The Commissariat aux affaires maritimes (CAM) strongly encourages owners of Luxembourg flagged vessels to closely monitor the situation and to take the appropriate measures, as deemed necessary, on board their vessels.

At this stage, there is no impact reported on port operations in China; however if a Luxembourg flagged ship calls a Chinese port, CAM would recommend to read the [latest WHO situation reports](#), as well as the updates on the [IMO's website](#).

WHO also provided [advice for the public](#) in relation to the Novel Coronavirus.
